Objective

Motivated and detail-oriented Data Science student with hands-on experience in HTML, CSS, JavaScript, and basic web development. Seeking a Full-Stack Developer / Web Developer internship to contribute to building responsive web applications, design user-friendly interfaces, and assist in database-driven projects. Eager to learn modern frameworks, collaborate with developers, troubleshoot issues, and stay updated with emerging technologies while gaining real-world industry experience.

Technical Skills

- Frontend: React.js, HTML5, CSS3, JavaScript (Basics), Responsive Web Design.
- State Management: API integration.
- Backend: Python, Flask Framework, Rest API Development.
- Database & Storage: SQLite, MySQL.
- Tools & Libraries: Git, GitHub, Excel, OpenAI API, Dashboard creation, Data Visualization, Webpage development.
- Other: Basic understanding of UX/UI principles, Debugging & Troubleshooting.

Education

Bachelor of Data Science (3rd year)

Mysore College of Engineering and Management , Mysore, Karnataka | Expected Graduation: 2027

Projects

1. Portfolio Website (React.js, CSS, HTML)

- Developed a multi-page portfolio to showcase projects and skills.
- Implemented dynamic UI components, responsive design for mobile and desktop devices.

2. Expenses Tracker (Flask, Python, SQLite)

- Developed a user-friendly Flask-based web application for tracking daily expenses with database integration.
- Applied responsive design and basic UX/UI principles.
- Tech Used: Flask, SQLite, HTML/CSS, Python, datetime, sqlite3.

3. AI Resume Analyzer (Flask, AI, Python)

- Built an interactive web app using Flask and OpenAI API to analyze resumes and suggest suitable career roles.
- Helps students and professionals discover ideal career paths for internship and placement preparation.
- Tech Used: Flask, OpenAI API, PyPDF2, HTML/CSS, Python.

4. Stock Market Data Analysis (Flask, ML, Dashboard)

- Developed a Flask-based web dashboard for real-time and predictive stock market insights.
- Users can analyze multiple stock trends, predict future prices, and visualize historical patterns.
- Tech Used: Flask, HTML/CSS, Yahoo Finance API, Pandas, NumPy, Scikit-learn (Linear Regression), Matplotlib.

Certifications

- Basics of Python
- Tableau Data Visualization Basics
- Microsoft Power BI Basics

Strengths

- Quick learner, technically curious, and eager to grow in frontend development.
- Detail-oriented and responsible in completing tasks.
- Strong team player, collaborative, and open to feedback.

Languages

- English
- Kannada

Hobbies & Interests

- Exploring web development trends.
- Designing intuitive dashboards.
- Personal finance & budgeting apps.
- Listening to music.
- Dance.

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
